

Job Description: Dynamics 365 Business Central Developer

About Software Dynamics

Software Dynamics is a leading provider of IT solutions specializing in system integration. As a leading system integrator and Microsoft solutions partner in the region, we deliver extensive solutions for system development, including Business Automation, Connectivity, cloud migration, and advanced features in Business Intelligence and Data Visualization. Our offerings are designed to leverage Microsoft technologies, harnessing their power to meet diverse business needs.

The Role

As a Dynamics 365 Business Central Developer, you will play a pivotal role in providing objective advice, expertise, and specialist skills in Microsoft Dynamics, delivering innovative solutions using cutting-edge technology for clients across various industries.

Responsibilities

- Collaborate closely with clients to thoroughly understand their business processes, requirements, and key objectives.
- Document detailed designs and technical specifications to ensure a solid foundation for successful project delivery.
- Design and develop business solutions within Dynamics Business Central.
- Provide integration development for external systems and deliver development support services.
- Adhere to the design and implementation of development best practices.
-

Your Experience

- Possess expert knowledge (minimum 2 years) in Dynamics 365 Business Central.
- Demonstrate experience in leading consulting engagements with a strong focus on stakeholder management and a customer-oriented approach.
- Have a full understanding of Dynamics 365 AL.
- Experience with Power BI and C# Programming is desirable.
- Knowledge of Azure development and services is also desirable.

You as a Candidate

You are driven, flexible, and client-focused. Understanding the importance of collaboration with clients and the Software Dynamics team to deliver exceptional solutions, you possess excellent communication skills. You recognize that success is achieved when both sides are satisfied, and you know when to demonstrate flexibility and when to stand firm.

Who We Are

Software Dynamics is a dedicated Dynamics 365 Business Central service provider, specializing in implementation, upgrading, and integration partnerships. We foster a culture of flexibility and encourage active participation, all while maintaining a positive and enjoyable work environment. Trust is a meaningful principle to us, not just an empty phrase.

How to Apply

If you are interested in joining us as a Dynamics 365 Business Central Developer, please submit your resume to hr@softwaredynamicsgroup.com. We are excited to hear from you!
