Dynamics 365 Business Central Developer

About Us

Positioned as a leading Microsoft Cloud Service Provider (CSP), we specialize in managed services, catering to a diverse clientele. Our clients rely on us to optimize their Digital Transformation Journey by leveraging the capabilities of Microsoft Dynamics 365 for their business operations. With a reputation for providing reliable IT system support and pioneering Dynamics 365 Solutions, we are committed to fostering innovation and excellence in the technology solutions arena. Our goal is to empower our clients to achieve their objectives efficiently and effectively, guiding them through the ever-evolving landscape of business and technology.

Overview of the Role

Are you a skilled Dynamics 365 Business Central Developer with a passion for crafting solutions that drive business efficiency? Join our dynamic team and play a pivotal role in designing and implementing custom developments and integrations for our clients. This position offers an exciting opportunity to work on challenging projects and contribute to the growth of our innovative company.

Responsibilities:

- Design, develop, test, and deploy extensions and customizations for Dynamics 365 Business Central using AL language.
- Collaborate closely with consultants and business analysts to gather and understand client requirements.
- Integrate Dynamics 365 Business Central with third-party applications through APIs and web services.
- Identify and troubleshoot technical issues related to Dynamics 365 Business Central.
- Create comprehensive technical documentation to ensure clarity and transparency.
- Stay abreast of the latest features and functionalities of Dynamics 365 Business Central to provide optimal solutions.

Key Skills and Requirements:

- Minimum of 3 years of proven experience in developing Dynamics 365 Business Central (AL) or Dynamics NAV (C/AL).
- Strong grasp of ERP concepts and business processes.
- Exceptional problem-solving and analytical abilities.
- Proficiency with Azure DevOps or similar version control systems.
- Experience with SQL Server Management Studio (SSMS).
- Outstanding communication and collaboration skills.
- Ability to work both independently and collaboratively within a team.

Benefits:

- Competitive salary and comprehensive benefits package.
- Engaging and challenging projects that offer opportunities for professional growth.
- Supportive and collaborative work environment fostering continuous learning and development.
- Be part of an innovative and rapidly growing company at the forefront of technology solutions.

Why Software Dynamics?

At Software Dynamics, we are passionate about leveraging technology to drive business success. Join our team and become part of a dynamic environment where your expertise is valued, and your contributions make a tangible impact.

How to Apply:

If you are enthusiastic about this opportunity and possess the required qualifications and experience, we invite you to join our team. Please send your resume and a compelling cover letter outlining your suitability for the role to careers@softwaredynamicsgroup.com. **Kindly use the job title as the subject line for your email.** We look forward to exploring your potential future with us.

Deadline for Applications: [30th April,2024]
