.NET Frontend Developer

About Us

Positioned as a leading Microsoft Cloud Service Provider (CSP) and Retail Management Solutions Provider, we specialize in managed services, catering to a diverse clientele. Our clients rely on us to optimize their Digital Transformation Journey by leveraging the capabilities of Microsoft Dynamics 365 and SalesLife Retail Solutions for their business operations. With a reputation for providing reliable IT system support and pioneering System integration Solutions, we are committed to fostering innovation and excellence in the technology solutions arena. Our goal is to empower our clients to achieve their objectives efficiently and effectively, guiding them through the ever-evolving landscape of business and technology.

Overview of the Role

Do you love building beautiful, user-friendly web interfaces? Are you passionate about the .NET framework and modern frontend technologies? Join us as a .NET front-end developer and become an integral part of our team, contributing to the design, development, and maintenance of cutting-edge web interfaces for our .NET applications.

Responsibilities:

- Collaborate closely with back-end developers and UI/UX designers to translate design concepts into functional, user-friendly web applications.
- Utilize your expertise in HTML5, CSS3 (including preprocessors like SASS or LESS), and modern JavaScript frameworks such as React or Blazor to develop reusable and scalable UI components.
- Implement engaging user interactions and animations using the latest JavaScript libraries to enhance the user experience.
- Write clean, well-documented, and maintainable code that adheres to best practices and industry standards.
- Actively participate in code reviews and unit testing to ensure the reliability and performance of frontend code.
- Stay abreast of emerging trends and technologies in .NET frontend development, continuously expanding your skill set to deliver cutting-edge solutions.

Key Skills and Requirements:

- Minimum of 2 years of experience as a .NET Frontend Developer, demonstrating proficiency in HTML5, CSS3, and JavaScript (ES6+).
- Strong command of a modern JavaScript framework such as React or Blazor, with a focus on building interactive and dynamic user interfaces.
- Solid understanding of web accessibility (WCAG) guidelines and responsive web design (RWD) principles.
- Experience working with version control systems, particularly Git, to manage codebase efficiently.
- Excellent communication and collaboration skills, with a passion for teamwork and knowledge sharing.
- A relentless pursuit of excellence and a commitment to delivering high-quality software solutions.

Bonus Points:

- Experience with .NET Core and ASP.NET MVC, expanding your proficiency in the .NET ecosystem.
- Familiarity with server-side rendering frameworks like Blazor, enhancing your versatility in frontend development.
- Proficiency in unit testing frameworks such as Jest or Mocha, ensuring code quality and reliability.
- Experience with API integration, enabling seamless communication between frontend and backend systems.

What We Offer:

- The opportunity to work on challenging and innovative projects alongside a talented and supportive team.
- A collaborative and inclusive work environment that fosters creativity and professional growth.
- Competitive salary and comprehensive benefits package, recognizing and rewarding your contributions to our success.
- Continuous learning and skill development opportunities to expand your expertise in the .NET ecosystem and front-end development.

Are you ready to elevate your .NET frontend development skills and embark on an exciting journey with us? We invite you to apply today!

How to Apply:

If you are enthusiastic about this opportunity and possess the required qualifications and experience, we invite you to join our team. Please send your resume and a compelling cover letter outlining your suitability for the role to careers@softwaredynamicsgroup.com. **Kindly use the job title as the subject line for your email.** We look forward to exploring your potential future with us.

Deadline for Applications: [14th April,2024]

****** Please note: Only shortlisted candidates will be contacted.**
